

TILT TOP TABLES

THE Gemini
RANGE

APRIL
2010

eborcraft

Flexible and space-saving - that's Gemini, the innovative new range of modular conference furniture.

Gemini modules are easy to link together and just as easy to tilt upright for wheeling into storage.

Rectangular and semi-circular combinations in Oak veneer, with Oak crossbanding

The four Gemini modules - rectangular, semi-circular, annular and trapezoidal - are all designed to link together in any variety of changeable combinations, making Gemini a flexible and economic choice.

Modesty panels in matching veneer can be fitted as an option.

Rectangular and annular combinations in Ash veneer, with American Black Walnut crossbanding, and featured with optional modesty panel

eborcraft

For heavy-use environments, Gemini can be supplied with a high-pressure laminate finish which combines the need for durability with a choice of attractive contemporary colours.

For visual impact, it is hard to beat the beauty of real wood veneer, with its richness of colour and striking wood grain.

Rectangular and trapezoidal modules in Light Grey laminate

Rectangular and trapezoidal modules in Cherry Shade 3 veneer

Matt silver frame

Polished chrome frame

Gemini modules can be tilted upright when not in use, and stored vertically in order to save space.
